EXPERT ADVICE

Mr. Sandeep Jain

CEO and Founder of
GeeksforGeeks

He started this Journey with just one thought- every geek should have access to a never ending range of academic resources and with a lot of hardwork and determination, GeeksforGeeks was born.

Through this platform, he has successfully enriched the minds of students with knowledge which has led to a boost in their careers. But most importantly, GeeksforGeeks will always help students stay in touch with their Geeky side!

“ I understand that many students who come to us are either fans of the sciences or have been pushed into this feild by their parents.

And I just want you to know that no matter where life takes you, we at GeeksforGeeks hope to have made this journey easier for you. ”

COURSE OVERVIEW

This course is specifically designed to help any student who is inclined towards Computer science & wants to have a strong foundation regarding the same. With the help of this course such students and working professionals can land their dream job. Each and everything is covered in the form of video lectures so that it becomes easier to understand.

Be it a product-based company, service-based, or a startup. If you are willing to work in the IT sector & preparing for the same, there is nothing better than this course! For viewing detailed course syllabus Click on link:

[VIEW DETAILED SYLLABUS](#)

There is an **additional feature** of adding Doubt Assistance too!
(Add Doubt Assistance @INR 2,999)

The doubt assistance would be available in the form of a discussion portal, where there will be mentors and TA's to help you out with any problem you face for a complete year.

ADIL TANVEER

Complete Interview Preparation course helped me a lot in increasing my DS skills. Before starting this course I was very weak in this subject but this course was so good that after completing this course I was able to crack coding test & finally got a **full time offer from Amazon as a Software Development Engineer (Package-30 lacs.)**. I only focused on the content of this course as it was very comprehensive & concise. Practicing some more problems based on the topics covered in this course was also helpful. Not only DS but also the variety of concepts covered in this course were great, varying from basic C++ & Java concepts (OOPs), aptitude skills, verbal & analytical skills, and also System design topics (with examples).

MRIGANK SINGH

I joined this course and got placed in Airtel as Software Engineer. GeeksForGeeks provided a step-by-step structured path to me, to solve coding problems. The best thing is that the course is taught in a well structured manner & there are a lot of questions to practice. I have learned all the concepts very well & especially Algorithms in very less time. I am really thankful to GeeksforGeeks.

WHERE OUR ALUMNI WORK

NON-CS BACKGROUND

Being from Non-CS engineering branch my chances of being selected were already slim but this course helped a lot in coping up with my peers from CS background. Everything that is important like DSA, DBMS, OS etc. was taught in depth.

Special thanks to Sandeep Sir for making things simple with his great teaching methodology.

LAKSHAY GUPTA

(Software Development Engineer)

TIER-3 TO TOP COMPANY

I am glad to share that I got placed in CGI which is in the top 5 IT & service companies in the world. This is possible because of GeeksforGeeks. I have purchased Complete Interview Placement Course from GfG & trust me you don't need anything else, because in this package

you get what you will learn in 4 years of B.tech. I just want to Thank GeeksforGeek for making this possible for me.

SOURABH KADYAN

(Software Development Engineer)

OUTSTANDING PACKAGE

In my 3rd year, I struggled to get my online round cleared in my dream companies. I was disheartened & demotivated so much. Somehow I got an internship but had zero satisfaction. Although I was using gfg from my 1st year but somewhere I felt that my concepts

needed to be structured in a proper manner. During January 2020 I came across this program by gfg & desperately joined this without any further thinking. Due to Sandeep sir & all other faculties in GfG I landed to my dream job. Thanks gfg for being with me through all thick & thins.

SHUBHANKAR TRIPATHI

(Software Development Engineer)

INTERNSHIP AT AMAZON

The course Complete Interview Preparation(I also took the doubt assistance) is a one-stop-shop for preparation for any company. This course has helped me so well in cracking interviews of 2 companies. This course covers almost everything from the Data Structures and

Algorithm section to the core subjects. I would recommend this course personally to everyone and tell them that they don't need to look anywhere else for the resources.

JULKARNAIN SHAHID

(SDE Intern)

QUESTION & ANSWER

I am from a non-CS background, with a very basic knowledge of programming. I am neither aware of the subjects asked in the interview nor do I have any friends with CS background. Can this course help me? If yes, then how?

This course comprises the subjects that are covered in the curriculum of a CS student that are **Operating System, Database Management System, Computer Network, Object Oriented Analysis & Design**. This course will help you by providing you with premium lectures, theory, practice tracks etc to ensure unidirectional, smooth & easy learning. In this course, we have users from different backgrounds like BCA, MCA, B.Sc (CS), and other B.Tech branches like ECE/EEE/Chemical/Mechanical/Civil, etc who are aiming for IT-sector companies.

RASHEKA SHRIVASTAVA

This course was a package which has been asked by the company. It contains coding questions, technical subject quiz, OOPs concepts, Aptitude Questions, Object Oriented Design which is asked readily in every company. This package is seriously a Placement package that assures 100% placement. It contains all the content relevant for placements and after completing each section you can appear for contests which give the experience as a real company test.

ORACLE®

**Placed

ORACLE**

(Server
Technology
Engineer)

When is the right time to enroll in the course? Should I wait and join this course in my pre-final year?

This course is suitable for any student, who is aiming for IT-sector companies, be it in the first year or in the final year. We suggest our students enroll in this course from 1st year itself, as it covers everything that will be covered during their B.Tech. Not only it will help the student to prepare for their Internships/Placements but also, for their regular exams that are conducted in their college.

This course is inclusive of weekly plans for each & every year (first-final year student) so that each student can cover at its own pace & can also devote their time to the project work as well.

Is there any Mock Test available in the course?

To help our students in every possible way so that they ace the interview of their dream company, we provide company-wise questions. Also, Mock-test is available in the form of contests in the course itself.

What is the difference between the DSA, SP course & the CIP course?

The DSA-SP course covers the basic to advanced content of DSA. While Complete Interview Preparation Course covers DSA, Additional topics of DSA that aren't covered in the DSA SP course, Not only this but also core subjects like OS DBMS, OOPS concept, and much more. Hence CIP is the complete package for Interview Preparations.

How does Doubt Support work?

There is a discussion forum integrated on the dashboard under each video and with problems. You can simply comment and ask your doubts there. Almost all doubts are instantly resolved by course mentors/TA's. Also, there is a separate discussion forum available where you can simply comment for any theoretical doubt/any other course-related query.

What is the difference between free courses/content available and the paid ones?

Free courses/content available on GeeksforGeeks is covered in a theoretical format. If students require more help & want to opt for video lectures then we suggest them to go for the paid courses as each & everything is covered in the form of video lectures by Mr. Sandeep Jain (CEO, GeeksforGeeks) & Industry Experts.

There are premium practice problems available in the course that are available in Company-wise (Tier 1-3) format/Level (easy-moderate-advanced) format.

ABHINAV DUBEY

I personally liked DSA & OOPs in this course. It is a detailed course which covers all the topics relevant to the placements & helped me in gaining a lot of knowledge. The contents of the course is well structured & organised which explains each & everything very clearly. This course helped me to clear interviews & contributed to getting a job.

(Package
-22 LPA).

Details about the price, validity of the course.

The course is available in two forms:
Complete Interview Preparation priced at INR 6,999.
With Doubt Assistance priced at INR 2,999 extra that is
(INR 6,999 + INR 2,999).

I have been working in a non-tech profile for the last few years, is this course a good choice for me?

If you are someone who is looking forward to switching to a Tech profile or a Tech company, then yes this can help you with the switch. Even if you are new to the tech world, this course will help you give the best start and explore each and everything covered here is beginner friendly and will take you up to the advanced level.

What is the checklist that I need for my Interview Preparation?

- ✓ Programming languages (C++, JAVA)
- ✓ Libraries (C++ STL/JAVA Collection)
- ✓ Data Structures & Algorithms
- ✓ CS Core subjects (OS, DBMS, CN)
- ✓ Object Oriented analysis & design
- ✓ Aptitude & Reasoning
- ✓ Mock tests

MOHAMMED ABDUL SOFIYAN

The way GFG helped me in getting placed in Dream offer was really amazing & their course CIP (I also took doubt assistance) content was entirely on placement. It basically motivated & gave confidence in my interview.
