

To whom it may concern

We are pleased to write a Letter of Recommendation for **Ms. Mulumudi Harika Bhavya**.

It is with immense delectation that we recommend **Ms. Mulumudi Harika Bhavya**, to pursue her higher studies at your esteemed University. She has successfully completed a summer internship for a period of 1 month, during 1st May 2016 to 30th May 2016, where she worked on “Puzzle Designing”. During this period of time, our interaction with her was delightful. She was very prompt in completing her assigned work and was prominent in explaining all her thoughts and ideas.

We find her to be hard working and sincere in giving her best while working on any assigned work with a positive attitude. We also have few of her articles of puzzles published on our website, which portray her logical reasoning capability.

In my opinion, she can give her prominent contribution to your university, if given an opportunity. We have also provided her a certificate for her internship. [Link](#) for verification.

We surely endorse **Harika Mulumudi** for whatever position she takes up in the future.

Sandeep Jain

Sincerely,
